I. INTRODUCTION

'The absolute most brilliant personalities in the nation can be found on the last seats of the homeroom'.

- Dr. APJ Abdul Kalam

Fundamental highlights of National Education Policy 2019 are an Indian-focused training framework that contributes straightforwardly to changing our country constructing reasonably into an evenhanded and energetic information society, by giving excellent training to all.

The Chairman of National Education Policy was Dr. K. Kasturirangan, presented the reports on May 31, 2019. The Committee was comprised by the Ministry of Human Resource Advancement in June 2017.

The National Education Policy which looks to address the difficulties of: (I) access, (ii) value, (iii) quality, (iv) moderateness and (v) responsibility looked by the current training framework.

his National Education Policy 2019 accommodates changes at all degrees of training from school to advanced education and It centers around:-

- Early youth care
- Reform the current test framework
- Strengthen educator preparing
- Restructure the schooling administrative system.

II. OBJECTIVES OF THE STUDY

1. To comprehend the essential components of NPE 2020.

2. To talk about the Features of NPE 2020.
3. To talk about the job of educator in the NPE 2020.
4. To talk about the essential perceptions identified with NPE 2020.

According to above primary target analyst has arranged this applied paper.

Primary Features of NPE 2020:

- according to NEP draft proposes new Curricular and Pedagogical Structure, with 5+3+3+4 plan covering the kids in the age bunch 3-18 years.
- according to NEP draft For Pre-Primary and Grades 1-2 is considered as central Stage; Grades 3-5 as Preparatory Stage; Grades 6-8 as Middle Stage and Grades 9-12 as Secondary Stage.
- according to NEP draft Children learn dialects, most immediately between 2-8 years, and multilingualism has extraordinary intellectual advantages for understudies. In this manner a three-language equation has been proposed.
- according to NEP draft he educating of other traditional dialects and writing, including Tamil, Telugu, Kannada, Malayalam, Odia, Pali, Persian, and Prakrit in schools.
- another free State School Regulatory Authority (SSRA) to be made.
- according to NEP draft the three kinds of Higher Educational Institutions (HEIs): Research Universities, Teaching Universities and Autonomous degree-allowing schools.

- according to NEP draft the intends to give self-governance to all advanced education organizations. Advanced education foundations to be administered by Independent Boards with complete scholastic and managerial self-rule.
- according to NEP draft the intends to universalize the pre-essential training by 2025 and give central education/numeracy for all by 2025.

NEP notice the school instruction is over offspring of 3-18 years, rather than the current 6-14 years under the RTE Act. NEP covers three years under youth care and instruction (ECCE) and four years under optional training. ECCE would encourage play and disclosure based learning for offspring of that age gathering. Its accentuation on native language based training and oral language advancement are basic.

According to NEP draft centers around web based learning as an option in contrast to standard study hall cooperation among instructors and understudies for better arrangement. Likewise NEP helps in accomplishing the twin destinations of reducing expenses and expanding enlistment. The NEP discusses the better commitment of the private area and provisioning for government financing for Research and Development work through a proposed public exploration store. Proficient schooling will turn into an essential piece of the advanced education framework.

NPE 2020 and Role of Teacher

The Role of Teacher is to shape the personalities of the more youthful age. Instructors should be enthusiastic, propelled, and capable, and very much prepared in substance, teaching method, and practice.

- Teachers assume vital parts in the existences of the understudies in their homerooms. Instructors are most popular for the job of teaching the understudies that are set in their consideration. Past that, instructors serve numerous different jobs in the study hall.

Instilling Knowledge

For educators update encouraging information is significant for proficient turn of events. The most widely recognized job an instructor plays in the study hall is to instruct information to kids. Instructors are given an educational plan they should follow that meets state rules. This educational plan is trailed by the instructor so that consistently, all appropriate information is administered to the understudies. Instructors educate from numerous points of view including addresses, little gathering exercises and active learning exercises.

Establishing Classroom Environment

For homeroom climate Teacher-Students connection is vital. Educators additionally assume a significant part in the study hall with regards to the climate. Understudies Teacher communication relies upon content. On the off chance that the instructor readies a warm, cheerful climate, understudies are bound to be upbeat. Educator ought to consistently give the uplifting feedback for understudies.

Job Modeling

Understudies consistently saw to Teachers and he/she is the

good example for understudies, Students invest a lot of energy with their instructor and in this way, the educator turns into a good example to them. This can be a positive or negative impact contingent upon the educator. Educators are there not exclusively to show the kids, yet additionally to adore and really focus on them. Instructors are commonly exceptionally regarded by individuals locally and consequently become a good example to understudies and guardians.

Tutoring

Guide Mentee correspondence, association is vital for consolation and better turn of events. Coaching is the most ideal route for understudies currier improvement, Mentoring is a characteristic job taken on by instructors, if it is deliberate. This again can have positive or negative impacts on kids. Tutoring is a way an educator urges understudies to endeavor to be the best they can. This likewise incorporates urging understudies to appreciate learning. Coaching helps fabricate understudies certainty and encourages them need to be fruitful.

- Teachers likewise perform well, educators should be esteemed, upheld, regarded - cheerful instructors and understudies make for fantastic educating and learning! Specifically, the ordinary workplace of instructors and understudies should be protected, agreeable, and welcoming.
- Instructors, and their schools, school edifices, and study halls, should be very much provided with the learning assets that they need for viable educating.
- Teachers should have the independence to develop and educate in the style that best suits them and their understudies.
- Teachers should have powerful freedoms for CPD, and admittance to learning the most recent advances and thoughts in both instructional method just as subject substance.
- Teachers should feel part of a vital job for proficient local area.
- Teachers work should have a mindful, community, and comprehensive school culture, which empowers greatness, interest, sympathy, and value. An enormous piece of this school culture should be set by school chiefs, school complex pioneers, and SMCs and School Complex Management Committee.

NPE 2020: Important School Education related Observations

School Education:

Youth Care and Education: Include:

- The Curriculum that doesn't meet the formative requirements of youngsters.
- Lack of qualified and prepared instructors
- Understand teaching method.

Youth care instruction is vital for youngster improvement. It is conveyed through anganwadis and private-preschools. There has been less spotlight on the instructive parts of youth. Public Education Policy suggests building up a two-section educational plan for youth care and training.

Right to Education Act, 2009 (RTE Act)

RTE Act accommodates free and obligatory training to all youngsters from the age of six to 14 years. The National Education Policy suggests broadening the ambit of the RTE Act to incorporate youth instruction and auxiliary school training. This would broaden the inclusion of the Act to all kids between the ages of three to 18 years.

Educational program structure:

Educational program system should be rebuilt based on the advancement needs of understudies. This would comprise of a 5-3-3-4 plan containing: (i) five years of central stage (three years of pre-grade school and classes one and two), (ii) three years of preliminary stage (classes three to five), (iii) three years of center stage (classes six to eight), and (iv) four years of optional stage (classes 9 to 12).

School assessment changes:

The NEP centers around understudies focus Teaching-learning. For School test reason it ought to be developmental way and keep tabs on understudies' development report all through their school insight. The NEP prescribes rebuilding the board assessments to test just center ideas, abilities and higher request limits. Board assessments will be on a scope of subjects.

The understudies can pick their subjects, and the semester when they need to take these board tests. The in-school last assessments might be supplanted by these board assessments.

III. CONCLUSION

Public Education Policy 2019 will assume a significant part in the change of the Indian schooling framework. Presently it is required to help India in procuring its segment profit. NEP will play an importance job for advancement of pre-essential instruction to advanced education framework in India. The current paper had considered the National strategies and the interrelation to the instructors. Additionally, the present paper zeroed in on job of educator, as a Teacher is to shape the personalities of the more youthful age. The understudies instructor cooperation is exceptionally huge in the new training period. Moreover study the a few perceptions identified with NPE 2020.
